

DYNAMIC ENVIRONMENTAL PROTECTION

Exposing your vehicle's unprotected surfaces to the natural elements will quickly add years to its appearance. Damaging UV rays from the sun and fallout from the atmosphere begin to wear down the exterior and interior surfaces. ResistAll has been leading the industry for over 35 years, providing complete environmental protection with unrivaled customer support.

RESISTALL®
DYNAMIC

RESISTALL[®] PLUS

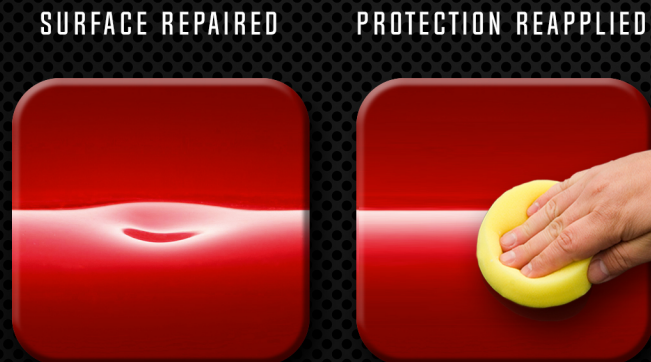

ResistAll Plus provides the most comprehensive exterior and interior environmental protection package available that far exceeds the limited coverage offered by standard manufacturers' warranties. ResistAll Plus provides a strong exterior barrier that is infused with state-of-the-art ceramic technology that seals microscopic pores on the surface of the clear coat. Interior fabric protection fully encapsulates each fiber to prevent stains from setting in, while interior leather and vinyl protection keeps surfaces looking and feeling brand new.

- Infused with Advanced Ceramic Technology
- Superior Surface Protection
- Expanded protection against bacterial odors caused by mold or mildew
- Aluminum Alloy and Chrome Wheels
- Fading on Headlight Lens
- Water Spotting on Chrome

ADDITIONAL BENEFITS

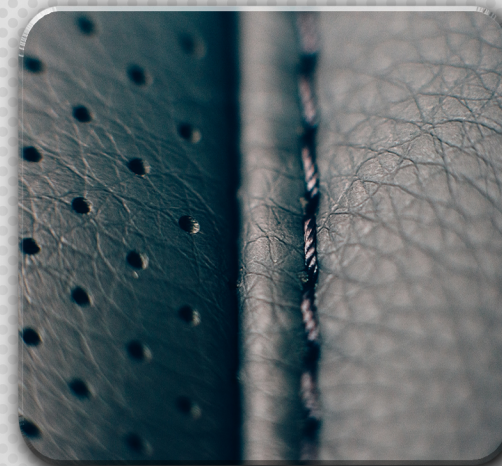

ResistAll Plus includes professional reapplication of the product on exterior treated surfaces of the vehicle that sustain covered damage as well as restoration of minor dents (up to 3 3/8") on exterior treated surfaces using standard PDR methods.

RESISTALL[®] RIPS, TEARS, & BURNS

ResistAll Rips, Tears, & Burns protects the treated interior leather/vinyl surfaces of your vehicle from rips, tears, burns, punctures, and loose seam stitching.

(Coverage limitations apply. Please refer to your warranty.)

RESISTALL[®] WINDSHIELD

ResistAll Windshield Sealant seals and smooths the microscopic pores and pits of automobile safety glass, protecting your vehicle's windshield from damage caused by flying rocks and road debris.

- Covers rock chips and cracks up to 6" ■
- UV Resistant - Won't blister or peel ■
- Windshield repair or replacement ■

A sealant fills in the microscopic peaks and valleys on the surface of the untreated glass, adding strength and protection and enhancing the smoothness of your windshield.
